CDFA & Kentucky League of Cities Launch Partnership **—CDFA Kentucky Financing Roundtable in Partnership with KLC—**

Columbus, OH — The Council of Development Finance Agencies (CDFA) is pleased to announce the Kentucky League of Cities (KLC) as an official partner of the CDFA Kentucky Financing Roundtable. The CDFA Kentucky Financing Roundtable, in partnership with KLC, is dedicated to retaining and expanding a sustainable economic development finance industry in the Commonwealth of Kentucky through education, resource development, research and networking. Launched in 2015, the Roundtable offers webcasts, online resources, live events and a dedicated state finance newsletter.

“CDFA is very excited to announce this new roundtable support with the Kentucky League of Cities,” said Toby Rittner, President & CEO of CDFA. “This support marks a new evolution in the CDFA Kentucky Financing Roundtable. We believe this is a big step forward for our work in Kentucky. With the support of KLC, we intend to continue to shape our mission in advancing development finance knowledge, networks, and innovation throughout Kentucky.”

Together, CDFA and KLC will host the 3rd Annual Kentucky Financing Roundtable Conference. Join us this fall to gain knowledge, expand your network, and improve development finance in Kentucky. The 2017 conference will feature experts and development finance practitioners from around Kentucky and across the United States discussing critical topics in the development finance field currently trending in the Kentucky economy.

“With the establishment of our Kentucky Bond Development Corporation in 2014, we are able to offer financing for qualified not-for-profits that have a public purpose or are connected to a city. This expands our 30 year history of helping municipal organizations with their financing needs,” said Kentucky League of Cities Executive Director/CEO Jonathan Steiner. “With the CDFA partnership, we look forward to helping to provide quality resources, education and networking through the roundtable.”
